

HOTEL MANAGED WIFI

YOUR HOSPITALITY TECHNOLOGY PARTNER.

Optimize your solution to create a lasting guest experience with Shaw Business.

A MANAGED SOLUTION

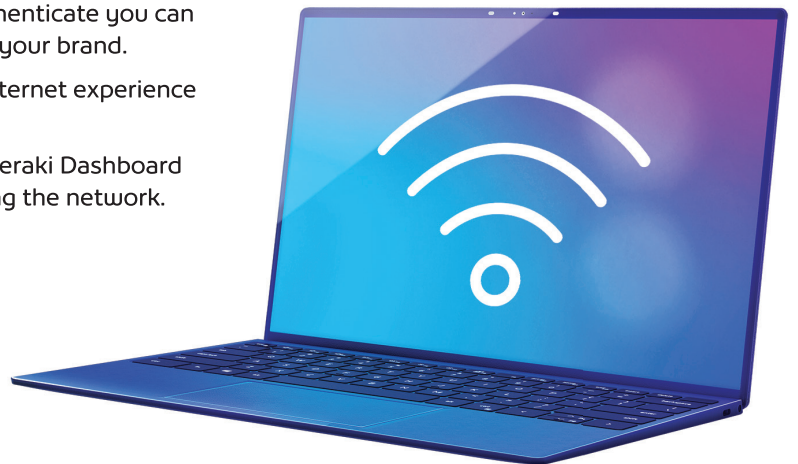

- We're here to help with your troubleshooting, security provisioning so you can focus on your guests.
- As a fully cloud based solution updates are seamless.

KEEP EVERYONE CONNECTED

- Hotel Managed WiFi alleviates the need to manage multiple vendors and guarantees enough bandwidth to meet your business' needs.
- Add a wired port for guests concerned about security.

INCREASE GUEST SATISFACTION WITH A CUSTOMIZED, FLEXIBLE SOLUTION

- Customizable splash pages allow you to create a branded authentication experience with customized messaging. After guests authenticate you can drive them to a unique landing page, further highlighting your brand.
- Easily manage guest bandwidth to ensure a consistent Internet experience for every guest.
- Understand your guests even better with access to the Meraki Dashboard with visibility into key metrics about how guests are using the network.

FULLY INTEGRATE WITH YOUR PROPERTY MANAGEMENT SYSTEM (PMS) TO

- Create a seamless guest login experience.
- Up-sell guests to higher bandwidth speeds to drive incremental revenue.
- Integrate Guest Support tools freeing up staff time to focus on running your business.

GIVE YOUR GUESTS CONTROL

- Give guests control over their in-room entertainment with our casting solution.
- Guests can securely cast movies, TV programming, music and games using their favourite apps from their personal device.

WiFi BY THE NUMBERS:

65%

of guests get online within seven minutes of checking in to their hotel.¹

82%

of 18-34 year olds would use a casting device in the room.

71%

of hotel guests say they received complimentary WiFi, with free WiFi being one of the more important amenities.¹

80%

of guests will not book again if they have a poor technology experience.²
